

1 suggestion?

2 Delegate Maurer started out with an amendment,  
3 the purpose of which was to require that the heads of  
4 all principal departments be single individuals, but she  
5 had to make an exception, she thought, with respect to  
6 institutions of higher education and the state public  
7 school system.

8 Now we come along with an amendment by Delegate  
9 Bard, the effect of which is to prevent the legislature  
10 from making any change in the organizational structure  
11 of the state public school system or the system of higher  
12 education.

13 He could change the composition of the board,  
14 the number of members of the board, but you have to have  
15 a board and a superintendent under the board or a board  
16 of regents and the president under the board of regents.

17 And it seems to me that the effect of the  
18 amendment, as I got it from questioning Delegate Bard, is  
19 to prevent the legislature from making any change ever in  
20 the existing organizational structure of the educational  
21 system.

Now, am I correct or incorrect, Dr. Bard?
